Coughs, colds, broachitis, decline, asthma, night-sweats and spitting of blood, are cured in a surprisingly short space of time; the severest colds have yielded to the treatment of the Naphtha Syrup in the short space of 48 heurs. James Western, of Pontiac, Mich, was attacked with spitting of blood and could obtain no relief until he tried Hasting's Naphtha, which stopped it in half an hour. To enamerate all the cures performed by this medicine, would occupy a volume. The accompanying have been selected by the American Agent, from a mass of cartificates and letters which have been received in Jaine.

fortunate victim of hereditary disease, with swollen glands, con-tracted sinews, and benes half carious, has been restored to health and vigor. The scrofulous patient, covered with ulcers, loadisome to humself and his attendants, has been made whole. Hundreds of persons, who had grouned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation. The testimony of those who have been cured by its use, with their residences, has been published from time to time; and were it desirable, a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. The afflicted, and those who have not used this medicine, are invited to make a trial of its virtues, and appropriate to themselves the benefits which it alone are bestow. penefits which it alone can bestow.

Messrs. Sands:—Gentlemen—I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate Cancinous Uluer on my breast.

I was attended eighteen months by a regular and shifful physician, assisted by the advice and counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were resorted to for five weeks in succession my breast was burned with causite three times aday, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an onnee of the salution. The doctor probed the ulcer and examined the bone, and still the disease was advancing rapidly to the lungs, and if I do not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast ind open and the bones examined; but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, and considered my case nearly hopeless.

Seeing various testimonials and certificates of cure by the use of Saxos' Samapanilla, in cases similar to my own, I concluded to try a few bottles, several of which were used, but, from the long deep seated character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over cleven months since the cure was completed; there is not the slightest appearance of a return. I therefore your source myself with, and the cure entirely effected by Saxos' Sansarantia, at I took so other medicine of any kind derived the rise I was using it, nor have I think it my duty to make. Your valuable Sarsapariila cured me, with the blessing of Divine Providence, when nothing else could: and I fee

LIVER COMPLAINT. The following is an extract from a letter received from Rev. William Galushi Messrs. Sanns:—I have been afflicted with a severe pain in my side, occasioned not conver by a deseased liver, for the last twenty years: suffering at it my side, occasioned Messrs. Sarns:—I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years; suffering at times what languing cannot convey; but since taking your Sarsaparilia I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last fifteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilia, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrobious complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I. Shaw, by the use of six bottles, was restored to better health than site mad before emjoyed for ten years; and Mrs. W. Stevens, who had been severely afflicted with Erysipelias, was entirely cured by the use of a few bottles.

Yours truly,

WM. GALUSHA.

CURE OF A SCROFULOUS AFFECTION OF THE EYES. Messrs. Sands:—Gentlemen—My little daughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extended into her eyes, causing almost total blindness in one of them, and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her rehet, but it all proved useless, and finally one of them remarked to me that he had known of some striking cures effected by Sandy Saraaparilia, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up I had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are salisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint.

Respectfully yours, GEORGE ROBINSON.
